***“Capturing the Connections”***

March 2010 Member’s Gallery Show

I create photographic images to express my sense of joy and wonder, of peace and serenity, of being in the moment as I let creativity flow through me to capture the connections found all around us. This exhibit presents photographic images from my portfolio that strike a balance between strength and simplicity – the strength which can only be found in simplicity - and which, hopefully, take you, if only for a moment, to a place of peace and serenity.
